NIRANJANA DWIVEDI

Digital Marketing | Growth | AI-Driven Systems | Web & Automation

Profile

Digital Marketing & Growth Specialist with strong hands-on experience in Python-based automation, CSV data handling, logic building, AI tools, and web technologies. Proven ability to design and manage lead generation systems, automation-first workflows, viral content engines, and CRM-driven pipelines.

Skilled at bridging marketing strategy with technical execution — from running Google & Meta Ads to building automation scripts, handling structured data, and supporting backend workflows. Known for fast execution, experimentation mindset, and scalable system thinking.
